

FACT SHEET

Concept	French Bistro Established in July 2009, Bistro Du Vin (BDV) is fully committed to delivering a truly authentic dining experience in a French Bistro. No effort or expense has been spared in creating an ambience typical of a similar establishment in France, from the furnishing right down to the convivial service style, music and memorabilia decorating its walls.
Cuisine	<p>Demystifying French food, BDV, focuses on an array of traditional dishes from across France. Prepared from traditional recipes with the freshest ingredients possible - but without the fuss and pomp usually associated with the “French Fine Dining” restaurant. Here, you have quality and quantity!</p> <p>BDV chefs spend at least 2 weeks every year eating and working in brasseries and bistros across France. Each time, they bring back new authentic recipes. While some of these might be slightly modified to suit the local climate, emphasis is always on keeping flavours true to “the real thing”. Besides the set lunch and à la carte menu, there are also ‘specials’ or plats du jour. These can be found on the chalkboard and change to feature ingredients that are in season.</p> <p>The restaurant maintains a simple, friendly-priced yet comprehensive selection of French wines by the bottle, as well a range of wines by the glass and by the carafe.</p>
