

## A BREATH OF FRESH AIR AMIDST THE CONCRETE JUNGLE

PACK'D, a new casual and convenient wholesome food concept under the Les Amis Group will be making its maiden debut set in mid-September. It will be located within Suntec City Shopping Centre, at the basement concourse around the Fountain of Wealth. Besides being a no-frills and affordable lunch option to today's time-starved office executives, PACK'D offers a breath of fresh air amidst the concrete jungle we live in with its homespun décor.

Be greeted by the bright and cheery hues of yellow and blue the moment you step foot into the outlet. The airy environment and rustic décor provide diners with a temporary escape from the monotony of the urban jungle.

PACK'D offers busy urbanites a quick and hassle-free solution for breakfast, lunch and dinner. Always having their diners in mind, the crew at PACK'D uses fresh ingredients which are free from additives. Start your day on the right note, with delicious Muffins (\$2.40 nett) and a variety of wholesome open-faced sandwiches (ranging from \$2.70 nett - \$3.40 nett).

For something a little more substantial, sink your teeth into their variety of sandwiches (ranging from \$7.30 nett - \$8.80 nett). Be sure to try the Roasted Chicken with Egg and Celery, warm Smoked Duck with Mango Chutney and Caramelized Onions, and savoury Beef Meatballs with Roasted Tomatoes and Black Olives.

Salad fans, you have not been forgotten. Dig into PACK'D's range of chunky salads (\$5.20 nett for small box, \$7.80 nett for large box). From exotic Glass Noodles tossed with South East Asian Spices to the familiar Cous Cous with Pumpkin, PACK'D offers diners a selection of salads that are packed with flavours.

Alternatively, dish yourself a serving of the "Soup of the Day" (\$3 nett for small cup, \$4.20 nett for large cup). Complete your meal with a slice of cake (ranging from \$3.40 nett - \$4.20 nett) or wash it down with a cup of coffee (ranging from \$2.60 nett to \$3.60 nett). All items on the menu do not include GST nor service

charge, and are available for both dine-and take-away. In a move to be environmentally conscious, the packaging at PACK'D is biodegradable, and is sustainably sourced and manufactured.

Life is complicated enough, that is why PACK'D aims to keep things simple, fun and fuss free, along with its wholesome selection of food.
